

IMPORTANT: This is a fixed indemnity policy, NOT health insurance

This fixed indemnity policy may pay you a limited dollar amount if you're sick or hospitalized. You're still responsible for paying the cost of your care.

- The payment you get isn't based on the size of your medical bill.
- There might be a limit on how much this policy will pay each year.
- This policy isn't a substitute for comprehensive health insurance.
- Since this policy isn't health insurance, it doesn't have to include most Federal consumer protections that apply to health insurance.

Looking for comprehensive health insurance?

- Visit **HealthCare.gov** or call **1-800-318-2596** (TTY: 1-855-889-4325) to find health coverage options.
- To find out if you can get health insurance through your job, or a family member's job, contact the employer.

Questions about this policy?

- For questions or complaints about this policy, contact your State Department of Insurance. Find their number on the National Association of Insurance Commissioners' website (naic.org) under "Insurance Departments."
- If you have this policy through your job, or a family member's job, contact the employer.

Hospital Indemnity Insurance

Build your financial safety net for the unexpected

An injury or illness can land you in the hospital for a night or two—or even longer. If that happens, unexpected costs from deductibles, copays or coinsurance, as well as non-medical expenses like child care or transportation, could take a serious toll on your family’s financial health. That’s where hospital indemnity insurance comes in. It’s offered through your work and can reduce the burden of a hospital stay by helping cover the cost.

Why hospital indemnity insurance?

If you end up in the hospital, you probably want to focus more on your recovery than your medical bills. Hospital indemnity insurance can help with the cost of your stay, giving you and your family some financial peace of mind.

How it works

Hospital indemnity insurance pays a fixed dollar amount per day for services and supplies you receive during a hospital stay, up to a maximum number of days each year. Stays in a mental health, substance abuse or nursing facility are also covered.

There are no preexisting condition limitations, no health questions to answer and no medical tests to take.¹ You’re paid the full per-day benefit no matter what other insurance you have.

What's covered

Hospital indemnity insurance pays a fixed dollar amount for each day of a hospital stay lasting 24 hours or more. Benefits are paid until you reach the maximum number of days stated in your policy. Your plan also has an initial-day confinement benefit (admission benefit), which pays a higher benefit amount for your first day of a hospitalization.

In addition to hospitals, benefits are paid for stays in intensive care units (ICUs) and other eligible facilities. Each facility has its own per-day benefit and calendar-year maximum.

Hospital

Intensive care unit (ICU)

Substance abuse facility

Mental health facility

Nursing facility*

*Nursing facility benefits are paid only if following a covered hospital stay of at least three consecutive days.

Newborn benefit

Your plan pays daily benefits for a hospital stay if you or your covered spouse is hospitalized due to childbirth, even for a routine delivery. You'll also receive daily benefits for the newborn or newly adopted child, even if you're the only one enrolled on the plan. This automatic coverage for the newborn or adopted child continues for the first 31 days from birth or adoption.²

DID YOU KNOW?

Hospital indemnity benefits are compatible with a health savings account (HSA).⁵

Injuries and illnesses that result in hospital stays can lead to expensive, unexpected costs

Financial planning for health care is important, especially considering these facts:

73% of adults reported they are either "very" or "somewhat worried" about being able to afford unexpected medical bills, including out-of-pocket costs not covered by insurance.³

It's estimated that nearly **50%** of an average person's health care expenses are from hospital services.⁴

25% of adults say that in the past 12 months they have skipped or postponed getting health care they needed because of the cost.³

Frequently asked questions

Will I receive reduced benefits from Symetra if another insurance plan covers my medical costs?

No. We'll still pay your full benefit, even if another insurance plan has already picked up some or all of the bill.

Is it easy to use my supplemental health benefits?

Yes! Watch this [brief video](#) to learn how to make the most of your benefits.

Why should I enroll during annual enrollment?

If you don't enroll in coverage during annual enrollment, you'll have to wait until the following year's annual enrollment, unless you have a qualifying life event like a marriage, divorce or birth of a child.

If I enroll now, will I be automatically reenrolled in the plan next year?

It depends, based on how your employer sets up annual enrollment. You may need to review all your selections and reelect coverage. The other option automatically reenrolls your current selections. Be sure to review your enrollment instructions and connect with your benefits representative if you have questions.

Once I'm enrolled, how will I file a claim?

You'll have access to a user-friendly online portal where you can submit claims in just a few minutes. And if you have other group coverage with Symetra, we'll automatically check to see if you're eligible for additional benefits.
