

Accident Insurance

Your plan for the unexpected

Accidents can happen to anyone, at any time. Could you afford the financial impact if one happened to you or someone in your family? With accident insurance, you can be better prepared for the unexpected.

How it works

Accident insurance can cover out-of-pocket medical expenses related to an accidental injury.

Benefits are paid for injuries resulting from an accident, and they don't interfere or coordinate with your major medical plan.

Why accident insurance?

Even with major medical insurance, your out-of-pocket health care costs can be substantial. Accident insurance can help you offset your deductible, copay or coinsurance requirements while paying little to nothing from your own pocket.

Benefits can also be used to pay for other expenses that may follow an accident, such as medical supplies, help with child care or anything else you may need.
